SYNTHETICCANDIDATE_023

Role: QA Automation Engineer | Experience: Mid-level

synthetic.candidate@example.org | (555) 019-8234 | Synthetic City, SC

MY PHILOSOPHY

Dedicated Mid-level QA Automation Engineer with proven ability to build scalable software. Currently exploring and learning GenAI.

CORE COMPETENCIES & TOOLKIT

Technical Skills: CI/CD, JavaScript, Jest, Postman, PyTest, Testing

CAREER TRAJECTORY

QA Automation Engineer Jan 2019 - Dec 2020

Synthetix Data Labs

? Architected core QA Automation Engineer features utilizing CI/CD.

? Enhanced system efficiency and automated processing using Testing.

QA Automation Engineer

Blue Horizon Digital

Jan 2021 - Present

? Architected core QA Automation Engineer features utilizing Jest.

? Enhanced system efficiency and automated processing using Testing.

SCHOOLING AND DEGREES

BS in Software Engineering

Metropolitan Science Institute

2013 - 2017

CGPA: 3.50

CREATIVE ENDEAVORS

Synthetic Platform Project 1

Technologies: Jest, Postman

? Constructed scalable service processing data with Jest.

? Integrated automated pipelines and testing with Postman.

Synthetic Platform Project 2

Technologies: CI/CD, Jest, Testing

? Constructed scalable service processing data with CI/CD.

? Integrated automated pipelines and testing with Testing.

BADGES AND PAPERS

Docker Certified Professional
